

# AGRITEC – Rotary hoe AT20/21

## Short description of AT20

The **AGRITEC** rotary hoe is a very important and valuable soil cultivation device in the field of gardening and landscaping.

The **laterally adjustable** rotary hoe of the AT20 series has been **specifically** developed to be used with municipal and compact tractors, as well as with agricultural carrier vehicles of 35–80 hp.

It has rigid and angled cutting blades that are arranged **helically** around the cutter shaft. This ensures an **extremely smooth** running with **minimal** power consumption and produces a clean cut.

The cutter shaft is powered by a **maintenance-free** chain in oil bath. An **automatic** chain adjuster ensures the **optimal** positioning of the chain. The rear protective cover and the integrated levelling bar, **adjustable** via chain, eliminates the bumps.

Due to its **side** shifting capacity, the AT20 is also particularly suitable for use in vineyards and orchards. But the AT20 rotary hoe has proven itself **thousands of times** in communal farms, tree nurseries and greenhouses as well.

Model	Operating width	External width	Side shift	Weight	Blade	Power requirement
AT20-085V	85 cm	101 cm	2 cm	123 kg	20	from 12 hp
AT20-100V	102 cm	120 cm	11 cm	134 kg	24	from 15 hp
AT20-120V	120 cm	135 cm	19 cm	144 kg	28	from 20 hp
AT20-135V	136 cm	152 cm	27 cm	155 kg	32	from 22 hp
AT20-150V	153 cm	168 cm	36 cm	165 kg	36	from 24 hp
AT20-170V	170 cm	185 cm	44 cm	175 kg	40	from 28 hp
AT20-185V	186 cm	202 cm	50 cm	186 kg	44	from 35 hp
AT20-200V	203 cm	219 cm	55 cm	199 kg	48	from 40 hp

## Technical features

- For carrier vehicles of 12–50 hp
- Operating width between 85 cm and 200 cm
- **Manual** side shift
- KAT.1, KAT.1N **rear mounting**
- Working depth adjustable up to **11 cm**
- 4 blades per flange – optional: 6 blades
