

# AGRITEC – Embankment mower BK500/BK600

## Short description of BK500/BK600

The **AGRITEC** embankment mowers of the BK500 and BK600 series have been developed with a robust design and high performance. The **lateral** layout of the main arm allows you to work at large or from long distances.

It is ideally suited for low embankments and **high** hedges in the landscaping and garden maintenance, as well as for working in roadside vegetation.

Due to the **innovative** technology and its **comfortable** operation, the mowing of embankments will be easy and convenient.

**High quality** workmanship and **effective** components guarantee an impressive quality of work.

**Landscape maintenance with measure!**  
**Easy and convenient mowing of embankments!**

Model	Operating width	Extension arm	Weight arm	Power req. tractor	Tractor weight/min.	Tractor track width	Angle head	Liter	Liter/min
