

AGRITEC – Embankment mower BS400/BS450

Short description of BS400/BS450

The **AGRITEC** embankment mower of the BS400/BS450 series has been specifically designed for **municipal** and **agricultural tractors** that have a track width of minimum 160 cm. This makes it ideal for the mowing of embankments and hedges in the landscaping and garden maintenance, as well as for working in roadside vegetation.

It is very **manoeuvrable** and extremely versatile due to the high connection point of the first arm.

Due to the **innovative** technology and its comfortable operation, the mowing of embankments will be easy and convenient.

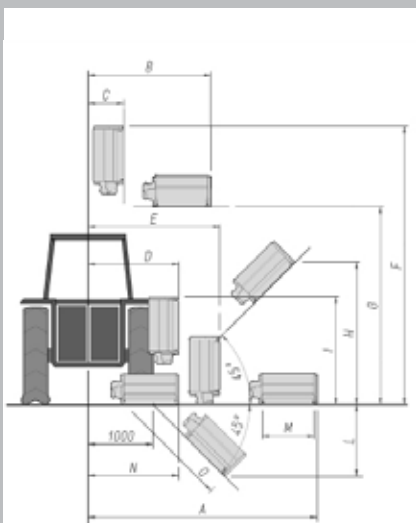

High quality workmanship and effective components guarantee an impressive quality of work.

The **standard built-in oil cooler permanently** offers you the full power of the **AGRITEC** embankment mower. Due to the oil cooling, our machines are generally designed for **continuous load**. This way the professional operation will be safe, versatile and reliable.

Landscape maintenance with measure!
Easy and convenient mowing of embankments!

Model	Operating width	Extension arm	Weight arm	Power req. tractor	Tractor weight/min.	Tractor track width	Angle head	Liter	Liter/min
